

# **Bethel Google Apps Parent Permission Form**

Bethel School District, Eugene OR

Bethel teachers and students use Google Apps for Education in the classroom. Google Apps for Education is a suite of free, web-based programs that include document creation and collaboration tools. Please review the attached information and complete and sign below. Return the top of this form to the school office.

Student Name: \_\_\_\_\_

Parent/Guardian Name: \_\_\_\_\_

Yes. By checking this box I give permission for my child to have a Google Apps for Education account and for the school to publish student work and photographs online, with the understanding that student last names and confidential personal information will not be published. I also agree to enforce acceptable use when my child is off District Property.

No, I do not want my child to have a Google Apps for Education account.

**Overview:** There is no email account associated with your child's Bethel's Google Apps for Education account. The Google Apps service is available through an agreement between Google and the State of Oregon. Google Apps for Education runs on an Internet domain purchased and owned by the Bethel School District and is intended for educational use. Your student's teachers will be using Google Apps for lessons, assignments, and communication. Google Apps for Education is also available at home, the library, or anywhere with Internet access. School staff will monitor student use of Apps when students are at school. Parents are responsible for monitoring their child's use of Apps when accessing programs from home. Students are responsible for their own behavior at all times. Student safety is our highest priority.

## **Acceptable Use** (Privacy and Safety)

Apps for Education is primarily for educational use. Students may use Apps for personal use subject to the restrictions below and additional school rules and policies that may apply.

### **Privacy**

School staff, administrators, and parents all have access to student documents and calendars for monitoring purposes. Students have no expectation of privacy on the Apps system.

### **Limited personal use**

Students may use Apps tools for personal projects but may not use them for unlawful activities, commercial purposes (running a business or trying to make money), personal financial gain (running a web site to sell things), Inappropriate sexual or other offensive content, threatening another person, misrepresentation of Oregon Public Schools, staff or students. Apps and groups are not public forums. They are extensions of classroom spaces where student free speech rights may be limited.

### **Safety**

Students may not post personal contact information about themselves or other people. That includes last names, addresses and phone numbers. Students agree not to meet with someone they have met online without their parent's approval

and participation. Students will tell their teacher or other school employees about any contact they receive that is inappropriate or makes them feel uncomfortable. Students are responsible for the use of their individual accounts and should take all reasonable precautions to prevent others from being able to use their account. Under no conditions should a user provide his or her password to another person.

### **Access Restriction**

**Due Process:** Access to Google Apps for Education is considered a privilege accorded at the discretion of the District. The District maintains the right to immediately withdraw the access and use of Apps when there is reason to believe that violations of law or District policies have occurred. In such cases, the alleged violation will be referred to the Principal for further investigation and account restoration, suspension, or termination. As a party of the Agreement with Google, the State of Oregon also reserves the right to immediately suspend any user account suspected of inappropriate use. Pending review, a user account may be terminated as part of such action. All student accounts are deleted at the end of each school year.

**Consumer Safety** (Advice for Students and Parents) Don't get scammed. Crooks are good at fooling people. They create fake emails and web pages that look real in a practice called phishing. Don't trust links or web pages sent by email. Instead, open a new browser window and type in the address yourself. Don't get spammed. Spam is unwanted advertising sent by email. Never reply to spam and never do business with a company that sends spam. Use the "report spam" button to get rid of spam.

**Digital Citizenship** (Advice for All) Treat others well. It hurts to get a mean email just like it hurts when someone is mean in the school hallway. When using email or making a post on a forum or web page, be kind. Everyone will see what you write so think before you type. Be careful with what you say about others and yourself.

Respect the rights of copyright owners. Copyright infringement occurs when an individual reproduces a work without permission that is protected by a copyright. If a work contains language that specifies acceptable use of that work, the user should follow the expressed requirements. If the user is unsure whether or not they can use a work, they should request permission from the copyright owner. Students have First Amendment rights to free speech. Your rights can be limited in school, though. If you post something via email or on a school web page that disturbs the learning environment in your school, your right of speech may be limited. School web sites, email, and groups are for educational use and are not considered public forums for debating ideas. This means that a school has the right to limit student speech that disturbs the learning process in these areas.

These are the laws and policies that help to protect our students online:

**Child Internet Protection Act(CIPA):** The school is required by CIPA to have technology measures and policies in place that protect students from harmful materials including those that are obscene and pornographic. CIPA:

<http://fcc.gov/cgb/consumerfacts/cipa.html>

**Children's Online Privacy Protection Act (COPPA):** COPPA applies to commercial companies and limits their ability to collect personal information from children under 13. By default, Google advertising is turned off for Apps for Education users. No personal student information is collected for commercial purposes. This permission form allows the school to act as an agent for parents in the collection of information within the school context. The school's use of student information is solely for education purposes.

COPPA - <http://www.ftc.gov/privacy/coppafaqs.shtm>

**Family Educational Rights and Privacy Act (FERPA):** FERPA protects the privacy of student education records and gives parents rights to review student records. Under FERPA, schools may disclose directory information (name, phone, address, grade level, etc...) but parents may request that the school not disclose this information. The school will not publish confidential education records (grades, student ID #, etc...) for public viewing on the Internet. The school may publish student work and photos for public viewing but will not publish student last names or other personally identifiable information. Parents may request that photos, names and general directory information about their children not be published. Parents have the right at any time to investigate the contents of their child's Apps for Education files.
