

Stations

Name: _____

Station #1

The waitperson brings a bill of \$50 for your meal. What's the total cost if you tip 15%?

Station #2

If there's a 2.5% sales tax, what is the tax amount owed for \$250,000 in sales?

Station #3

What is the markup amount on a \$20 item if the markup rate is 25%?

Station #4

If a shoe store markup is 75%, how much will they charge for a \$50 pair of shoes?

Station #5

If a shoe store buys a pair of shoes for \$20 and sells them for \$75, what is their markup amount and markup rate?

Station #6

What was the wholesale price of an item that was marked up 150% and retailed for \$120?

BONUS - Station #7

If the markup amount was \$24, what was the markup rate for an item with a sticker price of \$39?

BONUS - Station #8

What was the actual cost of a meal if the total cost (meal and 18% tip) was \$100.30?

I agree with the answers above for Stations 1 through 6 and think this person has shown work to support their answers.
