Dear Applicant,

Thank you for your interest in the Bethel Farm's Youth Summer Work Program. Youth will be working with us at the farm from mid-June through September. Work schedules will not interfere with school calendars.

The Bethel Farm offers its participants:

- Healthy physical activity and a chance to learn how to grow your own food
- Educational activities, field trips, and guest speakers on various topics including bee keeping, nutrition, cooking classes, and plant identification
- Training in marketing, selling, and customer service at a farm stand
- Access to fresh, organic vegetables to take home
- 18 hours of work per week at minimum wage

Working at the Bethel Farm is fun and challenging. Our staff has high expectation of youth crew members. The position involves heavy lifting, bending-over and standing for extended periods, and doing repetitive activities like planting, harvesting, and washing vegetables. We expect that crew members show up to work on time and with the proper clothing, footwear, and with a water bottle and snacks.
